### Company Profile

---

Rayhaneh Pharmaceutical Company, as a high-tech company, is committed to observe the following modern quality approaches in full compliance with GMP regulations in the production of quality products. Our company can be as one of the most modern pharmaceutical companies in the country, which has been built in order to mass-produce quality pharmaceutical products on a 15-hectare land with an area of 34000 square meters in the southeast of Isfahan. We produce the best pharmaceutical products for optimal effectiveness and stability by obtaining GMP certification, strict observance of cGMP principles and PIC/s criteria in manufacturing and quality control of medicines according to the international standards.

This Company's aim is to improve quality, prevent environmental pollution and pay attention to staff health by the utilization of ISO 9001: 2015, ISO 14001: 2015, ISO 45001:2018, ISO 10002 : 2018 ISO 10004 : 2018 IMS standards. Rayhaneh Pharmaceutical Company has two categories in the production of solids dosage forms of capsules and tablets: general and controlled medicines .

We consider product s quality and healthy life as our outstanding prospect's Quality is an inherent choice, from choosing of the raw materials to manufacturing of finished product, there shall be in accordance with the customer needs.the customer needs.The quality principles are embedded in all activities of the company.

Raybanah ربحانه

A hand with light-colored nail polish holds a blue glucometer. The device's LCD screen shows a reading of 98 mg/dL, with a small drop icon to the left of the number. A white test strip is inserted into the bottom of the device, and a small drop of blood is visible on the tip of the finger. In the foreground, a blue and white lancing device lies on a white surface. The background is softly blurred, showing a white container with green foliage.
